

TIBCO Developer HUB- Fundamentals

Course Audience

- Administrator
- Architect
- Developer

This course covers introduction to TIBCO Developer HUB™ along with hands-on labs. It also explains end-to-end integration application. It begins with an introduction to TIBCO Platform concepts, covering its architecture and the Dataplane's capabilities. It then transitions to introducing the Developer HUB, TIBCO's implementation of Backstage.io. It also delves into the installation and configuration of Developer HUB, followed by an exploration of Developer HUB artifacts and templates and integration with GitHub. It ends with an in-depth examination of the YAML structure relevant to Developer HUB, ensuring participants can effectively understand configuration files.

Course Design

- Lecture: 50%
- Lab: 50%

Course Length

1-day
