SAFE HARBOR DISCLOSURE

During the course of this presentation, TIBCO or its representatives may make forward-looking statements regarding future events, TIBCO’s future results or our future financial performance. Although we believe that the expectations reflected in the forward-looking statements contained in this presentation are reasonable, these expectations or any of the forward-looking statements could prove to be incorrect and actual results or financial performance could differ materially from those stated herein.

TIBCO could experience factors that could cause actual results or financial performance to differ materially from those contained in any forward-looking statement made in connection with this presentation. TIBCO does not undertake to update any forward-looking statements that may be made from time to time or on its behalf.
This document (including, without limitation, any product roadmap or statement of direction data) illustrates the planned testing, release and availability dates for TIBCO products and services. This document is provided for informational purposes only and its contents are subject to change without notice. TIBCO makes no warranties, express or implied, in or relating to this document or any information in it, including, without limitation, that this document, or any information in it, is error-free or meets any conditions of merchantability or fitness for a particular purpose. This document may not be reproduced or transmitted in any form or by any means without our prior written permission.

The material provided is for informational purposes only, and should not be relied on in making a purchasing decision. The information is not a commitment, promise or legal obligation to deliver any material, code, or functionality. The development, release, and timing of any features or functionality described for our products remains at our sole discretion.

During the course of this presentation TIBCO or its representatives may make forward-looking statements regarding future events, TIBCO’s future results or our future financial performance. These statements are based on management’s current expectations. Although we believe that the expectations reflected in the forward-looking statements contained in this presentation are reasonable, these expectations or any of the forward-looking statements could prove to be incorrect and actual results or financial performance could differ materially from those stated herein. TIBCO does not undertake to update any forward-looking statement that may be made from time to time or on its behalf.

#TIBCONOW
Integration Developer Persona

- Eclipse based IDE
- Design APIs and microservices in minutes
- Local and remote visual debugging
- Native Java development support
- Modularity and profiles support
Continuous Integration

- Open Source Apache Maven plugin
  - POM first approach
  - Package, install, deploy EAR files
  - Dynamically include jars in POM files using Maven dependency
- CLI utilities
- Assertions support for unit testing
Demo: API Development and Continuous Integration
Today’s DevOps

- Deploy
- Analyze
- Monitor
- Build
- Operate

This document (including, without limitation, any product roadmap or statement of direction data) illustrates the planned testing, release, and availability dates for TIBCO products and services. It is for informational purposes only and its contents are subject to change without notice.

DevOps Persona

- TIBCO® Enterprise Administrator and CLI based Administration
- Support for scripted deployment
- Monitor, Manage, and Lifecycle Apps
  - Toggle statistics collection
  - View deployed process and endpoints
  - Start/stop components
  - View job flow and statistics
- Push APIs to TIBCO Mashery®
- TIBCO FTL® Support for Fault Tolerant Deployments
Demo: Monitoring and Management
Key Focus Areas
Focus Areas

**Significant Performance Improvements**
- Faster XML processing
- Validation improvements
- Studio handling large XSDs
- Migrating and editing large projects

**API Development**
- Full Swagger 2.0 compliant
- FORM:Media type support
- JSON arrays and null support
- Custom faults
- One click HTTPS support for invokes

**Tooling and Ecosystem**
- Unit testing: Assertions
- Maven support
- DataDirect drivers
- Custom JDBC and JMS
- 35+ connectors
- RTView*
- Makedoc*
Focus Area - Migration

• Migration Is a Top-3 Priority
• Migration Improvements
  • New Migration Wizard
  • Selective Migration
  • Call Process ActiveMatrix BusinessWorks 5 style
• Additional Constructs
  • Error Transitions
  • Groups
  • Dynamic Call Process

Customer Advisory

• ActiveMatrix BusinessWorks 5 proceeds on a parallel track
• All new integration development in ActiveMatrix BusinessWorks 6
• No compelling need to migrate existing ActiveMatrix BusinessWorks 5 projects
• Business value assessment before choosing to use out of the box migration functionality
Takeaways

1. Continued investment to address customer needs.
2. We are ready for you to build something awesome
